ILL USTRATION, No. LXXVII.

**A TALISMAN AGAINST ENEMIES.**

ACCORDING to the opinion of the ancient theurgists, this talisman is under the dominion of the sun and Jupiter. It is to be cast of the purest grain tin, in the day and hour of Jupiter, at a time when these planets are in mutual aspect to each other, from the signs γ , Ω , or \ddagger , and during the increase of the moon. The characters are to be engraven on the same in the day and hour of Mercury, likewise during the moon's increase.

It may be suspended about the neck, or worn about any part of the body, so that it may be kept secret to all but the wearer. Its effects are, to give the most decisive victory over enemies, to defend against their machinations, and to inspire the wearer thereof with the most remarkable confidence.

It is to be remembered, that in this and the following talismans, the embellishments or scenery are to be omitted when they are made.
