Mission Statement

The mission of North Star is to provide a place of community for Latter-day Saints who experience homosexual attraction, as well as their family, friends, and ecclesiastical leaders. North Star serves those who desire the spiritual and social support that strengthens faith, builds character, and empowers men and women to live in joy and harmony within their covenants, values, and beliefs as members of The Church of Jesus Christ of Latter-day Saints.

Values Statement

North Star appreciates the importance of supportive fellowship and friendship with others who share their life experiences, values, and commitment to the gospel of Jesus Christ. North Star seeks to facilitate these relationships and to create a community where individuals will find joy in the gospel, help one another more fully understand and apply the atonement in their lives, share their experiences and challenges without shame or fear, and discover ways to contribute their unique gifts and talents to the work of the Lord.

Recognizing the uniqueness of individual circumstance, North Star takes no official position on the origin or mutability of homosexual feelings and attractions but supports all temporal efforts consistent with the gospel that help individuals live in more full harmony with their covenants and attain greater peace, fulfillment, and sense of individual worth, while affirming that the most essential and eternal changes come through the power of the Savior and adherence to the teachings of His prophets.

North Star holds that the power and grace of Christ can enable each individual to renounce behavior and manage thoughts that will prevent him or her from returning into His presence. North Star testifies that Jesus Christ has the power to reach and transform every life and that every individual can find genuine peace and hope in the promises of His gospel.
